

Spaghetti Tower Challenge

You must design the tallest possible spaghetti tower using only the materials provided.

Your Materials:

- 1 paper plate
- 20 uncooked spaghetti noodles
- 30 mini-marshmallows

The Constraints:

- You will work in groups of 3
- You may only use the provided materials
- Your tower must be free standing (it can't lean on anything)
- Your tower should be built on your paper plate.
- You only have 20 minutes to build your tower.

Other Rules:

- Sorry—you may not eat the marshmallows and noodles.
- Please respect the materials and your classmates.
- Have fun!
